THE SUBSCRIBERS

Offer on Leases of Ten Years from the first of April, 1815, the following

PROPERTY IN PITTSBURGH.

No. 1. THE Ferry Lot on the corner of Wood, Water, and Front streets. It contains 60 feet on Water street, on which are a valuable two story brick house and a three story frame one, weather-boarded and painted, and is a capital stand for a Store. The Ferry is allowed to be the best one on the Monongahela, and the situation of the property generally admirably calculated for the river trade, as it affords the easiest and most convenient communication; its length is 160 feet on Wood street, and is directly opposite Mr. T. Cromwell's warehouse, a number of shops are erected thereon, and on Front street it contains 60 feet, the corner occupied by Mr. Samuel Smith as a store, and is a well known stand. The real advantages of the Ferry are so well known as to need no comment. It is occupied by Mr. W. Graham.

2. The House and Lot on Water and Front street, with a front of 60 feet on each, by 160 feet deep, a few doors above Wood street, now occupied by Mr. Le Lacheur.

3. A Lot on Penn street, next to the valuable improvements of Mr. Abner Barker. It borders on the Allegheny river, and would be valuable for a boardyard, as it is 60 feet front by more than 400 deep.

As several applications have already been made to the subscribers for this property, they now give public notice that any person disposed to lease may know their terms by applying to either of them residing in Yorktown Penn.

FOREIGN INTELLIGENCE.

BOSTON, *April* 19.

LATE FROM ENGLAND.

We have received from our intelligent correspondents at Newport, (Rhode Island,) some interesting items of news which will be found below. To the verbal story of the defeat and retreat of the Allies, we give but little credit.—If it be true, we need have no apprehensions for the good cause. The arrival of the Crown Prince, who at the last dates was on the march from Hamburgh, will set all right.

[*Bost. Daily Adv.*

Office of the Newport Mercury, Sunday, April 17.

"This day arrived, the Swedish ship, Prince Carl Jhoan, capt. Oberg, 63 days from London, and 5 days from Bermuda, in ballast, where she put in.

"Captain O. left Bermuda on Monday last, and informs us, that a ship arrived there on Sunday (the day before he sailed,) in 35 days from England.

"Capt. O. was informed by the capt. that he brought London papers to the 1st March, and that they stated, there had been a severe battle between the French and the Allied armies in France; that the Allies were defeated with considerable loss, and had retreated about 80 miles. The capt. also informed, that, in consequence of the arrival of the Bramble, the expedition fitting out for America, had been suspended, and that the general opinion of the merchants in England, was, that a Peace would speedily take place, between the United States and Great Britain.

"The above are the particulars capt. O. was enabled to obtain.

"By the above arrival we were favored with Bermuda papers to April 9, but they contain nothing of particular consequence.

"Adm. Cochrane was at Bermuda on the 10th inst. but would sail in a few days for the American coast.

"Adm. Warren, in the San Domingo, with the Terpsichore Frigate (captured from the French by the Majestic) in co. sailed from Bermuda on the 7th inst. for England.

"The Bulwark, 74, with a convoy from England, arrived on the 7th, and sailed again on the 10th inst. for the American coast She sailed from England February 10th.

"From 900 to 1000 troops were at Bermuda, but there was no intention of sending them on any expedition to this country.

"The naval force at Bermuda consisted of 2 74's the Majestic and 2 frigates. No prizes had been sent into Bermuda since the 8th March.

"There were about 600 American prisoners at Bermuda. A ship was preparing to carry them to Halifax."

FRENCH NEWS.

Translated for the New York Mercantile Advertiser.

PARIS, FEB. 15.

The peasantry are rising in every direction. It is reported that 20,000 muskets, taken from the enemy, have been distributed amongst them. It is also said that 900 Russian and Prussian soldiers have been found concealed in a swamp.

PARIS, FEB. 19.

The Emperor, on the 18th, directed the march towards the bridges of Bruy and Montereau. His majesty being informed that the corps of gen. Wrede and the Wurtimburgese were in position at Montereau, he repaired thither with the corps of the Duke of Belluno, and that of gen. Gerard, the foot and horse guard. Meanwhile gen. Pujol was marching from Melun upon Montereau. The enemy defended the position, and has been completely overthrown that the town and the bridges on the Yonne and the Seine have been carried by assault, insomuch that these bridges remain entire, and we cross them to pursue the enemy. We have at this moment about 3000 Bavarian and Wurtembergers prisoners, with a general and 3 pieces of cannon.

This day the whole population filled the suburbs, the bulwarks, the streets, and publick walks, to witness the arrival of the new column's of prisoners. Their number is considerable.

Those that have been seen to day and yesterday, and those expected to morrow would form an army; and if to this number are added the dead, the wounded and sick of the enemy, we are convinced of the advantages already gained by the Emperor.

PARIS, FEB. 21.

Yesterday a column of Bavarian and Wurtembergese prisoners, entered this city at the barrier of Cearenton. The staff, several officers of which are decorated, marched at their head; the soldiers preserved their knapsacks.

PARIS, FEB. 26.

The official account of the re-occupation of Troyes by the French on the 24th Feb. has the following articles:

"Count Flahant, aid-de-camp to the Emperor Napoleon; Count Ducca, aid-de-camp to the Emperor of Austria; Count Schouvaloff, aid-de-camp to the Emperor of Russia; and gen. Ranche, chief of the corps du gentle of the king of Prussia, have met at Lusigny to treat of the conditions of a suspension of hostilities."

And concludes as follows:

Thus, in the day of the 24th, has the capital of Champaign been liberated, and we have made about 2000 prisoners, among whom are a great number of officers. We have besides found in the hospitals of the city upwards of 1000 wounded officers and soldiers who were abandoned by the enemy.

From the N. Y. Evening Post.

Marshal SOULT defeated.

A letter from Bordeaux, under date of the 9th March, has been received in this city, which states, that a severe battle had been fought between the armies of Lord Wellington and Marshal Soult, in which Soult was entirely defeated, with the loss of 6000 prisoners, and a great number killed and wounded. The letter adds, that the people of the country were flocking to Bordeaux, under the impression that they would receive better treatment from the enemy, in that city, than in the country.

We have not been able to procure a copy of the letter for our paper of this evening; but have received this summary of its contents from a very respectable gentlemen who has read it.

A letter from a very respectable gentleman in Bordeaux, to his correspondent in this city, dated the 2d of March, says,

"I have just heard that your Plenipotentiaries (American) have been met at Gottenburg, by those of England, and it is confidently expected that a Peace will be the result."

[*N. Y. Merc. Adver.*

Another letter, of the 5th of March, says,

"Lord Wellington's army had a battle with Soult's, at Ortes, on the 28th Feb. in which Soult was defeated with the loss of 6000 men."

[*Ibid.*

PHILADELPHIA, *April* 22.

PRISONERS of WAR.

Col. LEWIS & Maj. MADISON, of Kentucky, who were made prisoners at the battle of Frenchtown on the river Raisin, arrived in Washington City from Canada, on Saturday last, after having been prisoners of war for considerably more than a year.

[*Phila. Gazette.*

Lt. Parker, has died of his wound received near La Cole mill, in the affair of the 30th ult. Captain M'Pherson is expected to recover.

Fifteen hundred of the Vermont militia, are ordered out by his Excellency Gov. Chittenden, at the request of maj. gen. Wilkinson. 500 are to be stationed at Burlington, and 1000 at Vergennes. They are to be detached from maj. gen. Chipman's division.

[*Ibid.*

From the Boston Gazette, April 18.

THE ARMISTICE.

A gentleman who left Norwich, Con. on Friday evening, reports, that the deputy Navy agent at that place, had received orders from the agent at N. York, to suspend all contracts for the transportation of cannon, &c. destined for the Lakes, from the ships United States and Macedonian, lately ordered to be dismantled at New London—as it was reported that an armistice had, or shortly would, be agreed upon.

We understand, the deputy Commissary General for the army, in this town, has suspended several contracts in his department.

From the N. Y. Gazette, April 20.

The ARMISTICE—Again.

It is with the most poignant regret, we learn that the late rumors relative to negociations for an Armistice, are entirely without foundation, and that the flag lately sent to the British squadron, related merely to the exchange of prisoners, as did the late correspondence between our government and gov. Prevost.

BRITISH FLEET,

ON LAKE CHAMPLAIN OUT.

A gentleman arrived in town last evening, who left Vergenes, (Vt.) on Tuesday last, and informs us that lake Champlain is free from Ice; and that on Monday last the British fleet (9 sail) made their appearance off Burlington, and on Tuesday were about 10 miles below that place, standing for Vergennes. That about 1000 militia had assembled at Vergennes, and every preparation was making there and at Burlington to give the enemy a warm reception, should they attempt to destroy our fleet, which is considered tolerable safe. That the ship which has been building at Vergennes, was safely launched on Monday last, but would not be ready for sea under a month—her rigging, cables, anchors and guns, not having arrived. Her sails, however, were making. She is to carry 28 guns.

No action has taken place since the Stone mill affair.

[*Boston Gazette.*

From the Albany Register.

SACKETT'S HARBOR.

Serious apprehensions are generally entertained for the safety of our fleet at Sackett's Harbor. It would indeed be a most mortifying wound to our naval pride and glory, should the gallant Chauncey be obliged to surrender, even to a superior force. The situation of that excellent officer, however, is one more proof of the imbecility of our administration. The munitions of war, the cannon, &c. which ought to have been on the spot last fall are now scattered along the road, and some of them sticking in the mud, others are now lying on the docks in this city.

If, therefore, Chauncey's squadron does not fall a prey to the enemy, it will be owing to unexampled skill, gallantry and good fortune. The administration have done their best towards giving up the fleet.

NORFOLK, *April* 16.

The following is a correct statement of the enemy's force now in the Chesapeake:—Three of 74 guns; seven frigates; one brig, and two tenders. At anchor last night in Lynnhaven, the Dragon 74, and Acasta frigate.

A packet from Admiral Cockburn, containing despatches for government, was received by the commandant of this post on Sunday evening.

NEW-YORK, *April* 25.

The steam boat which arrived yesterday from Albany, brought no news from the northern army or the fleets Among the passengers were his excellency Gov. Tompkins, and Gen. Winder. The General was one of the prisoners confined in Quebec as a retaliatory hostage. He had been permitted some weeks ago to visit his family at Baltimore, on parole, and had returned at the expiration of it, when (as we presume) he was liberated by Gov. Prevost, very probably in consequence of the President of the United States having directed all the British officers now in custody as hostages, on the principle of retaliation, to be discharged on parole, with leave to return to Canada.

A London paper says the following were the new basis of peace offered to Bonaparte:

1. The independence, &c. of all the states in Europe, as in 1792.

2. The repayment of all the contributions levied on Austria and Prussia.

3. The surrender of the French fortresses in Franche Compte and Alsace, in pledge and security for the due performance of the treaty.

This, we believe to be the present negociation.

Gen. Wilkinson, it is now said, is to be tried by a court martial, which is to assemble at the south end of lake George—Col. King, one of the new members, has repaired thither, and a gentleman writes from Plattsburg, April 13, "General Wilkinson informs me that he will leave the command to Gen. M'Comb on the 15th inst." probably to repair there also.

From the Federal Republican, April 26.

We are informed by a gentleman of the district, who is well acquainted with every member of the cabinet, has closely observed its conduct, and has certainly had good opportunities to understand its movements:—

1. "That the most active and extensive preparations are now, and have been for some time, *quietly* making for a vigorous attack upon Canada."

2. "That the motive for ceasing to bluster, to use irritating language towards the enemy, and assuming a pacific tone is to throw him off his guard, while by such a finesse the loan is obtained, and of consequence, the means of renewing active warfare."

3. "That it is known by the President, that a naval armistice cannot be obtained, and that a separate armistice by land will not be accepted, so that when hostilities are renewed after the loan is obtained, it will be pretended that every effort was unavailing to suspend the war."

From the Wilmington Gazette, April 22.

AWFUL RESPONSIBILITY.

What person that has read the campaigns which the ambition of Bonaparte has made, does not shudder when he reads the following sentiments of Vattel concerning the sovereign who makes unjust wars! If Napoleon had a thousand lives, he never could atone for his deeds of ambition and murder.

Humanity is shocked at a sovereign, who, without reason lavishes the lives of his most faithful subjects, who exposes his people to the havoc and miseries of war, when they might enjoy an honorable and salutary peace. And if this imprudence, this want of love for his people be accompanied with injustice towards those he attacks, what guilt does he incur, or rather what a dreadful series of crimes does he commit! Besides the misfortune drawn on his subjects, for which he is accountable, he is guilty also of those he carries amidst an innocent people. The slaughter of men, the pillage of cities, the devastation of provinces, are his crimes. He is responsible to God, and accountable to man, for every person that is killed. The violence, the crimes, the various disorders attendant in the licentious tumult of arms, polute his conscience, and blacken his account, as he is the original author of them all."

From the Boston Centinel, April 20.

"*From* NEW-BEDFORD, *April* 18.

"By a gentleman of respectability, who was passenger in a Spanish ship from Porto Rico to New-London, and who left her yesterday off Block Island, and was landed at Second Point, I am informed, that on the passage from Porto Rico, which they left 20 days since, they spoke (and the informant was on board) a British vessel from Greenock, for the West-Indies, the captain of which informed that he had London papers on board to the 2d of March, which he was not willing to part with, but stated verbally:—

"That Commissioners had been appointed by the British government to meet the American Commissioners at Gottenburg.

"That the allies had received some check in France, and had retired from Fontainbleau to Troyes, 96 miles from Paris, in order, as was stated, to concentrate their forces.

"That Hamburg still held out at the last dates, but several places in the north garrisoned by French troops, had surrendered; and

"That Lord Wellington remained in the vicinity of Bayonne.

"Yesterday evening off Block Island, was boarded from the Nimrod, on officer of which informed of the destruction of the shipping at Saybrook, and said it was in retaliation for a recent *torpedo* attempt on La Hogue 74 A 74 gun ship, a frigate and a sloop of war, entered the Vineyard Sound on Saturday, and came to anchor to westward of Tarpaulin cove, where they still remain. They are said to be the Victorious, Endymion, and Peacock, late the Loup Crevier. Some of our citizens, apprehensive of an attack, are removing their most valuable effects out of town, and the shipping up the river."

From the Boston Palladium, April 21.

FROM CANADA.

We were yesterday favoured with Montreal papers to the 9th instant, from one of which we copy the following British official account of the battle at La Cole.

HEAD QUARTERS, *L'Acadie, March* 31, 1814.

GENERAL ORDER.

His Excellency the Commander of the forces, has received from maj. gen. De Rottenburgh, thro' maj. gen. Vincent, the report of lt. col. Williams, 13th regt. commanding St. John's, and the posts in advance of the Richelieu river, stating that the outposts of the communications leading from Odelltown, to Burtonville and La Cole Mill, were attacked at an early hour on the morning of the 20th inst. by the enemy, in great force, collected from Burlington & Plattsburg, under the command of maj. gen. Wilkinson.—The piquets retreated in good order, before superior numbers of the enemy disputing his advance. The advance on the Burtonville road was now persevered in; and the whole of the enemy's force was directed against the post of La Cole, entrusted to the command of major Handcock, of the 13th regt. who reports that his piquets from a mile and an half in advance being driven in, the enemy shortly after appeared in great force, and established a battery of 3 12 pounders, which was opened on the mill block house.

Maj. Handcock, receiving inteligence of the approach of the two flank companies of the 13th regt. to his relief, ordered an attack upon the enemy's gun, which altho' executed with the greatest gallantry, could not succeed, in consequence of the surrounding woods being filled with the infantry for their support. Another opportunity presented itself, and was instantly seized by the grenadier company of the Canadian Fencibles and a company of the Voltigeurs, who having followed the movement of the enemy from the Burtonville road, with a view to reinforce the point attacked, made a spirited attempt to get possession of the enemy's guns; but altho' foiled in this object, from his very superior numbers, succeeded in gaining the block house.

Both these gallant attacks have been attended with the loss of several brave soldiers. Capt. Ellard, 13th regt. was wounded while leading his company to the assault; and maj. Handcock regrets the temporary loss of his able services. He expresses himself indebted to capt. Ritter, of the Frontier Light Infantry, who, from his local knowledge of the country, was enabled to afford him the most essential service add information.

Maj. Handcock speaks in terms of the highest praise of the detachment of marines under Lieuts. Caldwell and Burton; and expresses the strong obligations he feels himself under to capt. Pring of the Royal Navy, for his prompt and able support, in bringing a sloop and the Gun Boats from the Isle aux Noix to the mouth of La Cole river; from whence his fire was most destructive and galling to the enemy; and to lt. Creswick, (royal navy) who was most active and zealous in landing 2 field pieces and stores, and getting them from the boats to the Mill block house.

The enemy persevered in his attack until night fall, when he withdrew his guns and retreated by the road to Odelltown, having sustained a severe loss.

His Excellency the commander of the forces most cordially agrees in the high tribute of praise bestowed by lt. col. Williams, on maj. Handcock, for his most judicious and undaunted defence of the post committed to his charge, and to all the troops immediately engaged in its defence, for their spirited and determined good conduct.

The Flank Companies of the 13th regt. the Grenadiers and the Canadian Fencibles, and the companies of Voltigeurs seized with avidity the opportunities presented to signalize their entire devotion to the service.

His excellency has only left to express his most entire approbation of the judgment, zeal and unwearied assiduity displayed by lt. col. Williams, 13th regt. his arrangements for the defence of the important posts placed under his immediate command; and to maj. gen. Vincent, for the excellent disposition of the force under his orders, by which, without unneccessarily harrassing the troops that prompt support was instantly applied at every point of this extensive line of frontier, that the enemy's 4th attempt to invade this province, has, like his former efforts, recoiled on his own head with disgrace and defeat, from the bravery & steadiness of of the advanced posts of the army. Nor can His Excellency pass over the steady discipline and cheerful conduct, evinced by all the troops brot' forward to support the advanced posts in this most harrassing and unfavorable season, without rendering to them that praise and thanks which is so justly their due.

By order of His Excellency,

EDWARD BAYNES

ADJUTANT GENERAL BRITISH N'H. AMERICA.

PLATTSBURGH, *April* 2.

The following General Order was issued at Odletewn, Lower Canada, on the 31st ult.

GENERAL ORDER.

The affair of yesterday is honorable to the troops, and gives them a title to the thanks of the General and their country. The constancy and courage exhibited under a tedious and galling fire of the enemy, was exemplary, and would have done credit to the oldest troops in the world. Where every officer and every man evinces the same firmness and intrepidity, the General feels, that it would be invidious to particularize. The advance under Cols. Clark and Forsyth, the corps under Brig. Gens. Smith and Bissel, beat the enemy at every point of attack and repulsed several desperate charges on our artillery: and the select corps under Brig. Gen. Macomb, who were panting for the combat, if there had been occasion for their services, would have displayed equal valour.—Every man and officer, every member of the general staff, manifested the utmost promptitude and decision. The conduct of Captain M'Pherson and his seconds, Lieuts Larabee and Sheldon, who commanded the battery, was so conspicuously gallant, that the army will expect the General for designating them. The first kept his post until brought to the ground, by a second shot. The second until grievously wounded, and the third behaved with the utmost intrepidity and maintained his ground until ordered to bring off the pieces.

Let the meritorious dead be collected and buried with the honors of war in the same grave. Let the wounded be cherished with the utmost tenderness, and removed to the hospitals in the rear.—And let the troops be immediately completed to sixty rounds of ammunition and held perfectly ready to meet the enemy, should he venture to advance.

On Monday evening last, General M'Comb with about 800 American troops took possession of the village of St. Armand—they have also brought in 7 or 8 pieces of cannon, and it is supposed intend to fortify and garrison the place.—A great number of the inhabitants have left the place, the General has issued a proclamation inviting them to return, promising them protection of persons and property.

From the Plattsburgh Republican.

ATTENTION.

Pursuant to General Orders, all officers and privates, under my command are hereby ordered, to hold themselves in constant readiness, either to FIGHT or RUN, as the occasion may require.

SETH SHERRY,
Captain of Militia.

WASHINGTON CITY, *April* 21.

It is with great satisfaction we are enabled to state, that the public authorities of the U. S. and G. B. are relaxing in their measure of retaliation. In consequence of the indulgence shewn to gen. Winder in the permission granted to him by sir Geo. Prevost to return for a time to his home, the President immediately extended a like indulgence to some British officers similarly situated. About the period that our executive was thus manifesting his willingness to keep pace with the adversary in acts tending to promote the cause of humanity, sir Geo. Prevost, without any knowledge of the fact, allowed col. Lewis and maj. Madison to leave Quebec, on parole, for the U. States; and, in pursuance of the same philanthropic spirit, the President, we understand, has given direction for the discharge, on parole, of all the British officers, now in custody as hostages, with permission for them to proceed to Canada. Thus, the retaliatory system, which at its commencement, wore a menacing and terrible appearance, is gradually losing its aspect of ferocity; and in a way

too, which promises to leave little or no irritation on either side. The indulgencies granted to the hostages, by the public authorities both in Canada and the U. States, are voluntary acts of benevolence, and have been sufficiently simultaneous to deprive either government of the exclusive merit of having first commenced them.

It will abate a little te exultation of the Democrats who brag so much of their gain, which their Mr. Dexter has obtained over their gen. Varnum, when they find that their new candidate, with all the quid and creature auxiliaries, will have 6000 votes less than Mr. Gerry had the year before last.

THE PITTSBURGH GAZETTE.

FRIDAY, MAY 6, 1814.

GENERAL HULL.

It is reported, that the Court Martial have convicted Gen. Hull of *treachery* and *cowardice*, and sentenced him to suffer DEATH. If this be true, it is a most extraordinary procedure to suffer the General to be at liberty, and for the President of the Court to give him a written permission to return to his family.

Commodore St. Clair has superceded Capt. Elliott in the command on Lake Erie. Captain Elliott is ordered to Sackett's Harbour to join Commodore Chauncey.

EXTRACTS.

Government is not a trade, which any man, or *body of men, has a* right to set up, and exercise for his own emolument, but is altogether a trust, in right of those by whom that trust is delegated, and by whom it is always resumable. It has of itself no rights; they are altogether duty.

Government ought to be as much open to improvement as any thing which appertains to man; instead of which, it has been monopolized from age to age, by the most ignorant and vicious of the human race. Need we any other proof of their wretched management, than the excess of debts and taxes with which every nation groans, and the quarrels into which they have precipitated the world?

If commerce were permitted to act to the universal extent it is capable, it would extirpate the system of war, and produce a revolution in the uncivilized state of governments.—The invention of commerce has arisen since those governments began, and is the greatest approach towards universal civilization, that has yet been made by any means not immediately flowing from moral principles.

Whatever has a tendency to promote the civil intercourse of nations, by an exchange of benefits, is a subject as worthy of philosophy as of politics. Commerce is no other than the traffic of two individuals, multiplied on a scale of numbers; and by the same rule that nature intended the intercourse of two, she intended that of all.

Whatever the form or constitution of government may be, it ought to have no other object than the *general* happiness. When, instead of this, it operates to create and increase wretchedness, in any of the parts of society, it is on a wrong system, and reformation is necessary.

It is possible that a nation may be the carrier for the world, but she cannot be the merchant. She cannot be the seller and the buyer of her own merchandize. The ability to buy must reside out of herself; and, therefore, the prosperity of any commercial nation is regulated by the prosperity of the rest.

There can be no such thing as a nation flourishing alone in commerce; she can only participate; and the destruction of it, in any part, must necessarily affect all. When, therefore, governments are at war, the attack is made upon the common stock of commerce, and the consequence is the same as if each had attacked his own.

ST. LOUIS, *April* 9.

It is a fact well ascertained, that Robert Dixon is now collecting a large body of Indians, on or near the Winabago lake; it is also known as a fact, that he has in his interest the Sioux, Winabagos, Folsavoine, and a considerable portion of the Ottawas, Chippewas and Kickapoos. Does it not become the guardians of the commonweal to ward the impending blow?

VINCENNES, (I. T.) *April* 16.

Major Taylor started from this place on Wednesday last, with a company of United States infantry, destined for St. Louis; serious fears are entertained of an attack on that place by the Indians.—Report says, a large body of them are collected on the Missouri, about three hundred miles above that place, under Dixon.

From the Buffalo Gazette, April 26.

The enemy continue repairing Fort Erie; and their force appears to have been augmented of late.

It is stated that the enemy are concentrating their forces at Kingston.

The "Luminary," printed at Watertown, (N. Y.) fully confirms the statement lately published in this paper of the enemy, during the past winter, in getting on large supplies of ordnance and military stores, to make a vigorous and desperate effort to retain the ascendancy on Lake Ontario.

They have 3 vessels on the stocks, one of which is of 150 feet keel, the other 2 of 130 each, but neither of these are in such great forwardness as ours at Sackett's Harbor, that it is probable that ours will be ready for service something the soonest.

One hundred pieces of cannon arrived at Kingston in Feb. drawn by 200 yoke of fine Vermont oxen.

The enemy were lately building a very considerable number of boats on lake Simcoe.

"*In contrast all the pleasure lies.*"

The Embargo experiment reminds us of a story told of a sooty son of Africa, who was frequently discovered beating his shins. Being asked the reason, he replied—"*O! he feel so good when he be done aching.*"

FROM A CORRESPONDENT.

FARMERS AND MECHANICS BANK OF PITTSBURGH.

On Tuesday next, (10th May) the Books for receiving subscriptions to the "*Farmers and Mechanics Bank of Pittsburgh*," are to be opened by the Commissioners. It appears from the Law, that during the first six days, no person can subscribe for more than a given number of shares each day—after that time, should any shares remain unsold, they may be taken without reserve.

The shares are $ 50 each, and $ 5 must be paid on each share at the time of subscribing. One half of the whole number of shares must be sold, and 20 per cent. paid before the governor is authorised to issue letters patent, incorporating the Company.

That the stock in this institution, will meet with rapid sale, there is no doubt. Farmers & Mechanics will be anxious to become stockholders in a Bank, bearing their names, and the concerns of which, must be managed by Farmers and Mechanics alone. Independent of the pride of having a Bank among us thus named and thus conducted, the stock must become valuable and handsomely remunerate the holder for the money he may invest in it.

It has been supposed by some, that under the Banking Law, the stock cannot be taken for any bank, by persons not residing in the district where such bank is situated. By reference to the 20th section of the law, it will be seen that any citizen of the U. S. in person or by agent may subscribe for stock, in any bank, on any and every one of the days when books are opened.

DIED, on Friday evening the 29th of April, after a lingering illness of almost 27 months, which she bore with christian fortitude, and resignation to the will of her Maker, Mrs. BARBARA HOFER, consort of Mr. Jacob C. Hofer, of this place. Her corpse was buried on Sunday, the 1st inst. in the German burying ground. She has left a husband, and five children to lament her loss.

——, on Saturday the 30th of April, Mrs. MARY M'DONNALD, consort of Mr. John M'Donnald, of the town of Franklin, Venango county, aged 47 years.

In the death of Mrs. M'Donnald society has lost a useful member, her friends and connections a worthy relative, and her husband an affectionate wife. Prudence, modesty and unaffected piety were prevalent traits in her character. She required but to be known to be esteemed. She has left a numerous family of children and respectable connections to regret her loss, and a husband to lament that fate has taken away his chief source of happiness.

——, on the 4th of April, at his residence in the vicinity of Pittsburgh, Mr. WILLIAM ROWLEY, aged 51 years. Mr. Rowley emigrated to this country from Great-Britain upwards of 30 years ago, and has resided in this place and its neighbourhood ever since.

FOR SALE,

THE TWO FOLLOWING DESCRIBED

Tracts of Land,

Situate on & near the Monongahela river, in Redstone settlement, about 30 miles above Pittsburgh, to wit:—

ONE TRACT, containing one entire survey of about 350 Acres of fine rich Land, situate in Fayette county, Luzerne township, about five miles southward of Brownsville, and one and an half miles from the River, through which passes a stream called Rushy Run, and on which Tract is the following Improvements—a new Dwelling House, erected in 1809, of the best materials, and neatly finished in a workman like manner, 20 by 22 feet, underpinned with stone, with a stone chimney and oven, an old Dwelling House about the same size nearly adjoining, a very excellent Barn, 23 by 50 feet, underpinned with stone, also, a Corn Crib, a Spring House, a Cooper Shop, adjoining the House, a thriving Nursery of Fruit Trees, and a Garden and Orchard of 125 Apple and Peach Trees. The Land now under cultivation on the above Tract consists of about 70 Acres in very excellent farming condition, of which 12 to 20 Acres are very nice Meadow, and a further quantity of from 40 to 50 Acres of fine Meadow may be made along Rushy Run. Through this Tract passes the direct roads from Brownsville to Crawford's Ferry on the Monongahela River, and also, that from the Ferry to Union Town. The improvements are now in the possession of Edward Eaglen, tenant on the premises.

One other Tract of Land, part of two surveys, containing about 550 Acres of Land, situate in Washington county, adjoining on the west side of the Monongahela River, about 6 miles about Brownsville, one mile north of Frederick Town, and about one mile southward of Friends Meeting House at Westland, and containing the mill stream known by the name of Fishpot Run; the Improvements on this Tract are as follows:—A good Log Dwelling House 21 by 18 feet, underpinned with stone, a stone Chimney and Oven, a Kitchen, an old Dwelling, Workshop, and Spring House, a good Barn 60 by 25 feet, a good shingled roof, built of hewn logs, and a Corn Crib; around the house is about 80 Acres of cleared Land in good arable condition, on Fishpot Run, about 300 yards from the river there has been a Saw Mill supported for many years, and at which much timber has been sawed, and the stream may be made very capable of advantageous employment for country purposes either for grist or for sawing timbers. In addition to this the situation of this Tract on the Monongahele River affords several places for River Mill Seats. On this Tract there are the following other Clearings and Tenements, which form separate settlements, in case a purchaser of the whole might choose to divide them off for Sale. On 94 Acres of this Tract, lying between two runs which join before they reach the river, is an improvement of about 10 Acres with a Log House and Stable, also, about 5 Acres of the low flats cleared near the river, on the road leading into Frederick Town, and also about 8 Acres cleared lying detached on the west side of Fishpot Run, a considerable portion of the uncleared land lies with each of the above divisions. The improvements are in the possession of Gabriel Swincheart and Francis Leak, tenants, on the premises.

On both these Tracts of Land there are large quantities of Coal, Limestone and Freestone, and the Timber has been well preserved, and is very good, with a plentiful proportion of Sugar Trees. The boundaries of all the Land are fully kept up, and the purchasers may be satisfied of having a clear title.

A more particular description of the Land is not necessary, as it is presumed a purchaser will not be satisfied without a particular examination of the premises. Application for the purpose may be made to the subscriber at Brownsville, or to JOSHUA & THOMAS GILPIN, Philadelphia.

HAVE JUST RECEIVED A FRESH SUPPLY

OF

PAUL'S PATENT COLUMBIAN

OIL.

THIS valuable Medicine having been established upwards of three years, and its virtues sufficiently exemplified by the number of respecta e certificates repeatedly laid before th public, it therefore now only become necessary for the information of those w o may not have had an opportunity of perusing the certificates, to detail a few of the cases wherein the Oil has been so wonderfully efficacious. Printed handbills containing certificates, may be always had, gratis, from the Agents, who will keep a constant supply of the Oil.

The following are the complaints in which the Columbian Oil has been found so efficacious, and rarely ever fails of effecting a cure, viz——Rheumatism, Consumption, Pains in any part of the body but particularly in the back and breast, Colds and Coughs, Tooth-ache, Spleen, Pleurisies, Cholic, Cramps, external and internal bruises, Sprains and Flesh Wounds, Scalds and Burns, Dysentery or Bloody Flux, Croup and the Summer Complaint in Children, and in weak stomach, that is caused by indigestion, a constant sinking and loss of appetite, it will act as a powerful bracer to the relaxed fibre and restore it to its proper tone, Whooping Cough and Mumps.

It seems as though nature ranked it the first of the class of all pectorals and expectorals for the relief of the breast and lungs, as it scarcely ever fails of removing obstruction in either, particularly those who are troubled with Phthisic and Asthmatic complaints, who in the act of walking fast, stoo[illegible] down are almost suffocated, half a teaspoonful of the Columbian Oil will render some relief instantaneously, and if continued agreeably to the directions in such cases, will prove a radical cure by producing the full power of inflation to the lungs and free expansion of the breast.

To the Public.—In order to prevent deception, the public are cautioned not to purchase any Oil that may be offered as "Paul's Patent Columbian Oil," that does not bear the true characteristics as published by my principal and sole agent Doctor John Love, of Baltimore.

THOMAS PAUL, Patentee.

DOCTOR HANDY'S,

WORM DESTROYING

LOZENGES,

A safe and efficacious Medicine for destroying and bringing away

WORMS.

MAY be used with safety by children of any age, or as common physic by the most delicate constitution, in any climate, without restraint of diet, or the smallest danger from cold. It may be given with advantage after the small-pox or measles; or as a family medicine, in any case where physic is necessary. The most frequent seat of worms in the human body, is the intestinal tube; but occasionally they have been found in almost every other part of the body.

Some very extraordinary cases of *Worms*, of an unusual form and appearance, being brought away by these Lozenges, have been made public in England, where the rapid sale of the medicine has exceeded any thing of the kind ever known before; and has also proved, to a demonstration, its approved superiority, as an athelminthick, to the numerous puffed-up, useless nostrums, which are daily advertised in the newspapers.

A single dose of this *valuable Medicine* has often been known to remove half a pot-full of the Teres or Round Worms.

A few doses are generally sufficient to remove the Ascarides, a small white worm, the seat of which is either the stomach or rectum.

Even the *Tape Worm*, at all times the most difficult to destroy, may, by persevering in the frequent use of this medicine, be totally removed in the course of a few weeks.

To select cases, with the names of people who are not known here, and living at a great distance, would be useless, and take up too much of the reader's time. We shall therefore only observe, for the benefit of those who are unacquainted with the symptoms of worms, that they are known or suspected to exist by a pain in the stomach, attended with a sudden depression of spirits before eating; at other times, the belly is hard, painful and distended with wind—costiveness, head-ache, and trembling of the limbs, with a sense of something rising in the throat—pale complexion and emaciated body, with weakness and irregular appetite—convulsive, epileptic, or falling fits—pains in the back and side, and frequent itching of the nose, and sometimes of the anus. The above, and a long train of afflicting diseases may all be occasioned by worms, which are much oftener the cause of death than is commonly believed.

The above valuable Medicine is sold only by

J. P. & J. W. SKELTON,

at their wholesale and retail Drug Store, at the corner of Wood and Third Streets, Pittsburgh.

Doctor CHISHOLM'S

Anti-Bilious Pills,

OF A QUALITY

Superior to any thing of the kind ever offered as a

GENERAL MEDICINE,

IN THIS COUNTRY,

Now prepared from a recipe of the celebrated *Dr. Chisholm*, who, from a long residence in the West-India islands, has been enabled to favor the world with the most complete history, and most approved methods of curing all the BILIOUS DISEASES of those warm climates

This extraordinary medicine, which now for the first time is finding its way into general practice, has properties in the highest degree superior to the mercurial nostrums so frequently recommended by the name of Anti-Bilious Pills. The extraordinary powers of this medicine as a solvent and evacuant of bile, is without example; never producing debility, or injuring the health, in the smallest degree, of the most delicate child, or weakly female.

The BILIOUS HEAD-ACHE, so much complained of in this country, and in the neighbourhood of rivers, is often removed by a single dose, which, to a strong man, is only five pills, and to a weakly woman, three. The same dose will generally remove the most excrutiating pains of the cholic, like a charm, by abusing the bile to pass downwards in the course of an hour or two.

Two or three Pills taken an hour before dinner, and repeated every third day, will effectually remove those diseases arising from flatulency and indigestion, and by persevering in the use of them for a considerable time, the appetite will be improved, and strength and vigor will return.

Two Pills taken at bed time, with a cup of penny-royal tea, and repeated every second night, will effectually remove *Rheumatic pains*, wherever seated.

A single Pill, taken every fourth hour with a cup of flax-seed tea, will cure *Pleurisy*, promote expectoration, and relieve coughs and colds.

In CONSUMPTIVE CASES and *diseases of the liver*, no medicine ever yet discovered, has been known to perform such cures. Two Pills, taken every third morning, will be found sufficient, unless costiveness prevails; in which case, the dose may be increased according to the strength or constitution.

The *Dysentery*, *Croup*, and *Summer Complaint* on children, are soon relieved by a few doses. A single Pill to a child of 6 years old, and the dose increased according to their strength and age.

In *Asthmatic* or *Phthisical* cases, where the laborious breathing and great oppression, with faintings, are fast sinking the patient to the brink of the grave, a few Pills, taking one every hour, with fennel or pepper-mint tea, will often enable the patient to walk about in a few hours.

The above valuable Medicine is Sold ONLY in Pittsburgh, by

BRIGHTON IRON WORKS

FOR SALE.

THIS elegant establishment consists of a *Furnace*, *Forge*, *Grist* and *Saw Mill*, together with extensive Coal, Store and Dwelling Houses, situate at the middle falls of Big Beaver creek, one mile from navigable water, 3 miles from the Ohio, 3 miles from the town of Beaver, and 28 miles from Pittsburgh. The Grist and Saw Mill are now usefully employed, and can be made very productive at a small expence. The Furnace and Forge are equal to any in the western country. The scite for water works comprises advantages equal if not superior to any on the Brandywine. The adjacent country abounds with ore, fuel and provisions, and the facility of transportation by water from the works to every part of the western country promises a sure and steady market for all its productions. The works are well supplied with first rate forge and furnace hands. The forge is now in operation, and the usual number of hands and teams are constantly employed in providing stock for a new blast, which it is intended shall take place about the 1st of March next, whether sold or not. The casting house is spacious and well supplied with flasks, patterns, and other requisite articles.—Possession can be given either before or after the first of March, as may be agreed upon, a fair price being given for the stock on hand.

ALSO FOR SALE.

A valuable Tract of Land on the east side of the creek, opposite the Iron Works, affording a scite for water works equal to any on the creek, on which is erected a Grist Mill and two Dwelling Houses, and a small Farm opened.—The whole of this property will be sold together or separate as may best suit the purchaser, and the terms made easy.

Apply to OLIVER ORMSBY, in Pittsburgh, or the subscriber on the premises.
